

Color Stories | Rustic Modern

We all love rustic weddings, but this one in particular incorporated the perfect touch of modern! The combination of orange florals, silver hued greenery, burlap, and mercury glass created a color pallet that blended perfectly in this natural setting. Our square Calvin white porcelain plates paired with the farm table made for a modern rustic feel. Adding soft touches of yellow with our Seersucker napkins gave the place setting a fresh texture, and we cannot get over how adorable the accents of cut metal hearts! Alas, burlap pillows on our studio furniture made for the perfect combination of Rustic Modern.

TRENDS WE LOVE | STRIPES

Bold stripes are a trend we love and are currently hot in the fashion and event industries. Whether horizontal, vertical, thick, or thin, stripes make a graphic statement any time of the day. Our new Zipp Licorice napkin creates a vertical pop of excitement against this black, white, and mint tablescape. Stripes are also popping up on this table in the glassware. Our L.A. collection, displayed in a wine and champagne glass, is a modern glass that is etched with 3 striped rings. There are endless opportunities to incorporate stripes into your event style and go bold!

COLOR STORIES | NAVY AND GOLD

Navy and gold complement each other beautifully and provides a classic and timeless color palate great for any event. Pairing our Marilyn China with our new Royce Gold Flatware and Gold Rimmed Duchess Glassware atop Caprice Navy linen creates the perfect combination. Weaving Caprice Navy chair sashes through our Gold Chivari chairs boasts an elegant and stylish flare to the chairs. A nearby cake table compliments the navy and gold theme by pairing opposites, a Gold Satin linen and tying it back with a Caprice Navy sash. The mixtures of navy and gold keep these tablescapes looking sophisticated and elegant.

Celebrations! on Location | Monterey, CA

This June Celebrations! had the privilege of traveling to Monterey to build one of our customized structure style tents. This event was a seated dinner occupying 1,000 guests, that was enclosed in our large structure tent measuring 82'x328'. Our staff installed our tent on top of a large tennis court which included black astro turf, solid white vinyl walls, wrought iron chandeliers, and white metal chandeliers. Our Celebrations! team was honored to have the opportunity to create a unique structure tent for this beautiful Monterey event!

Looks We Love | Up, Up and Away!!!

Our chalkboard stand is a great way to make any announcement, especially introducing your new little addition. Attaching wicker bread baskets with ribbon to paper lanterns and stringing them over the center of your table makes for an eye-popping center piece! You can use any colors that correspond with your theme and incorporate them into your glass and china choices. For the table setting we have paired our Waves overlay on top of a white linen, and placed our Maui Ocean Dinner Plate and Kona Clear Salad Plate atop our Retro Platinum Charger. Adding the Blueberry Fizz Napkins and Purple Bubble Goblets give some fun flare to your table. The sky is the limit with creativity!
