

Celebrations! on Location | Las Vegas

For this year's SEMA automotive show in Las Vegas, Celebrations! had the opportunity to showcase one of our complex structure styled tents. To accommodate the SEMA events product, our team of experts built our vast tent from the ground up, measuring at 164' wide and 541' long. To complete the structure, our crew also installed upgrades such as white cassette walls and glass doors. Our team was privileged to travel to Las Vegas to create an exclusive tent for a popular high-end event!
