

Woodland Wedding

Woodland Wedding! This is one of our favorite fall wedding tables this year! We paired our Loden polyester linen with Linen oatmeal and Charm runners. The Charm runner captures that elegant wedding look, but looks great with our rustic pieces. We then paired our new Glitz chargers with our Sophie dinner plate and Kona glass salad plates. The Linen rose napkin adds a soft pink tone for a subtle pop of color. We incorporated our Sonoma glassware, Fiddle flatware and our beautiful Crossback chairs to finish it off. This eclectic woodland table encompasses rustic glam. Impress your guests with this look!

Can I get a BOO-yeah?!

Can I get a BOO-yeah?! Celebrations! is ready to take on the night of all Hallows-eve with our Haunted Mansion inspired table! We transformed our lovely farm table into a ghoulish setting, so our friends of the night can enjoy a meal! To help get us into the spirit of things, we used our fizz carrot napkins with our Calvin square dinner plate and our Vogue salad! Spider webs are essential this time of year, so of course we attached them to our 15" silver candelabra's and stretched it all across our table, so our creepy crawler's have a place to hang out for the week! Stay spooky my friends!
