How To | Pick the Perfect Chairs for Your Event

For such a simple event staple, chair styles are surprisingly varied. But since chairs are one of the most abundant items at most events, they can certainly make an impact on the overall look. Keep reading to learn more about the 5 styles of chairs in our inventory and when you should consider renting each one.

1. Chiavari

With so many different color options, Chiavari chairs are some of the most versatile and popular chairs. These types of chairs can fit into almost any style and budget. Mahogany and Natural Wood are a good option for a more organic or rustic vibe, Vintage Wash fits in with a vintage or garden look, while Black, White, Silver and Gold can add coordinating color to your table style.

2. Gunmetal

In the past, Gunmetal chairs were used almost exclusively for industrial styles. However they are becoming more and more popular to use in a mix-and-match look. From edgy to romantic, they can really tie together a wide array of décor. If you're

having trouble envisioning these chairs at your event, feel free to come into any Celebrations! showroom and create your own custom displays until you find the perfect combination.

3. Phantom

The best thing about these transparent chairs is that they can fit into any style! Phantom chairs are popular as ceremony chairs for a simultaneously subtle and striking look, while they can be used as seating as well as guests' place cards at a reception with the help of custom decals. These chairs are the perfect base to dress up in your own unique style. Keep them simple for a sleek look, add faux fur on the seats for a modern and cozy vibe, or throw on some pillows for a pop of color. No matter what you do with Phantom chairs, the result is sure to stand out.

4. Specialty

Wooden Crossback chairs are one of the most popular chairs in our inventory for reception, ceremony, or any type of event seating. They bring a natural style to tie in a variety of looks, from a vintage garden party to a modern farmhouse wedding. For a more sophisticated look, Felicity dining chairs bring big style to any event. These chairs coordinate well with Crossback chairs or the Felicity lounge collection to create a cohesive look that's not too vintage or too modern, but somewhere right in the middle.

5. Folding

Padded Folding Chairs (available in White, Black, Natural, and Walnut Wood) and Off-White Samsonite Folding Chairs are quick, simple, and easy solutions to seat large crowds without a large bill. These simplistic chairs don't add much in the way of style, but they certainly get the job done and seat your guests comfortably.
