Color Story | Bright and Bold

Pastels and neutrals will always be a color palette favorite for weddings and events. But lately, we've been loving bolder hues for an eye-catching and unforgettable look.

As we head into fall, start thinking about ways you can use statement colors in your next event. Swap the traditional neutrals and muted hues of autumn for bright orange, bold red, and a pop of yellow.

Check out the photos above for more inspiration on creating a bright and bold color palette for your next event.

Looks We Love | Mix and Match Runners

Runners offer a unique opportunity to introduce many different colors, patterns, and textures to your table. Create contrast by layering runners and getting creative with your combinations!

Mix and Match: Colors

While combining complementary colors isn't exactly a new idea, try pairing a brightly colored runner with a more neutral linen, or mix two bright hues in the center of your tables for a bold statement. Layered napkins can add to the dual-toned look as well.

Mix and Match: Patterns

Don't be intimidated by patterns, or by combining them! Either with another patterned linen, or with a coordinating solid color, providing a contrast can help emphasize the pattern you choose.

Mix and Match: Textures

More than just the material, you can create texture with the way you style a runner on your table. A ruched or ruffled runner brings dimension as well as texture to a table, while a contrasting solid or flat runner can either help it stand out, or tone it down.

When it comes to creating contrast with a mix-and-match style, the best way to find the right look for your event is to experiment with your options and get creative! So don't be afraid to come into any of our showrooms to see our entire selection and to try different looks until you find the one you love.

Looks We Love | 6 Styles of Runners and Why We Love Them

Take your table to the next level with a runner! Whether fabric, floral, or a combination of the two, runners are one of the easiest and most budget-friendly ways to immediately enhance the style of your tables, as well as your event! Check out these 6 runner styles and why we love them.

1. Floral runners

For an all-natural vibe, stick to greenery and floral arrangements to run down the length of your table. This is a centerpiece that will stretch to whatever length you need it to, with virtually no limitations!

2. Statement runners

Go with a bold, decorative runner to make a stylish statement at your event. Stripes, polka dots, and sparkling sequins will attract the eye and bring a bold splash of style to your tables.

3. Textured runners

Ruffle up some burlap or tie knots in a softer fabric for a textured look that defies the usual role of a runner. The added dimension makes it easy to substitute the fabric for a traditional centerpiece, saving you both time and money!

4. Layered runners

If you'd rather keep your runners lying flat, try layering two or three of varying colors and prints to spice things up. Or layer a couple of the same runners for extra coverage on a

larger table.

5. Sideways runners

To turn your runners into a unique look, literally turn your runners! Lay several runners sideways for an almost striped look across your table, and a memorable use of your table space.

6. Romantic runners

Gather a softer fabric down the length of your table to create a cozy and romantic vibe. Sheer fabrics and lighter colors work best for this style, like white, ivory, or blush.

How To | Serve Hot Beverages

From an afternoon tea party to coffee and hot cocoa with dessert, there are plenty of opportunities for some delicious hot drinks in all kinds of events. When serving hot beverages, it's important to think ahead to keep them at the right temperature.

Coffee Urns, Insulated Carafes, Teapots, Coffee Servers, and a wide variety of mugs can all help pull off hot beverage service at your event. Whether you prefer a buffet-style coffee bar or table service, Celebrations! has what you need. Check out the photos above for some ideas on how to serve hot beverages at your next event.

A Fantastic Wedding Tent

[rev_slider_vc alias="A-Fantastic-Wedding-Tent"]Celebrations! Elegant Party Rentals and Tents had the opportunity to work on this beautiful wedding with a great event team. The tent was erected on an uneven surface, so a state of the art flooring system was used to level the flooring of the tent. This 50' x 100' structure tent was draped with a white pleated liner, swagged in chocolate taffeta and lit by our wrought iron chandeliers. The tables were draped with ivory satin and Milan Leaf linens and guest sat at mahogany chivaris adorned with ivory organza bows.

Tables were set with Venice amber chargers, Madison flatware, Sonoma glassware and Diana china. For the centerpiece the florist created beautiful flowers to adorn our Brushed Platinum Candelabras.
