

Woodland Wedding

Woodland Wedding! This is one of our favorite fall wedding tables this year! We paired our Loden polyester linen with Linen oatmeal and Charm runners. The Charm runner captures that elegant wedding look, but looks great with our rustic pieces. We then paired our new Glitz chargers with our Sophie dinner plate and Kona glass salad plates. The Linen rose napkin adds a soft pink tone for a subtle pop of color. We incorporated our Sonoma glassware, Fiddle flatware and our beautiful Crossback chairs to finish it off. This eclectic woodland table encompasses rustic glam. Impress your guests with this look!

Blush, Bronze, and Gold

This pallet of blush, bronze, and gold is one of the most beautiful and universal color schemes for 2015! The soft blend of these glittery colors makes it simple to adapt to your event whether it is a wedding, birthday, or shower. We love putting our Celebrations! spin on this pallet by incorporating a darker base with our Pewter tablecloth and breaking up the soft colors by adding a textured burlap runner along with the glitz of our Charm table runner. We then decorated the table with gold glitter chargers, gold rimmed china, gold rimmed champagne flutes, and added our Satin Bronze napkins. Have some fun and add your favorite color to this blend and see where it takes you!
